

School of AGRICULTURAL SCIENCES

ABOUT THE SCHOOL

The School of Agricultural Sciences is the new initiative of Techno-India Group of Institutions where it started B.Sc (Ag) Hons. Course as per rules and regulations of Indian Council of Agricultural Research (ICAR) in the system of agricultural education wherein teaching, research and extension programme are integrated in conformity with maintaining standard and quality at par with other institutions imparting the degree in agriculture and allied sciences. It is also in the process to conduct researches in these sciences and to undertake the educational extension programmes in the field of agricultural sciences amongst the rural clientele base, keeping in view the requirements of the country.

Vision

Provisioning of quality human resource to facilitate technology led agricultural renaissance revitalizing and rejuvenating post-green revolution in agriculture ensuring both production and environment sustainability targeting a maximum agricultural production and productivity.

Mission

To combat the emerging challenges in agriculture sectors and ensure productivity in increasing animal-fish-agri-horti crops on the face of shrinking land holdings, ailing soil health, diminishing water resources and increased human population.

STUDENT SPEAKS

I got a new wing here and started weaving new dreams and aspirations for shaping the future. I express my gratitude to the faculty and staff members of the university for their continuous positive efforts towards the betterment for every student.

- Liza Mitra, student, School of Agricultural Sciences

I am very grateful to Sister Nivedita University for giving me the opportunity to get enrolled B.Sc Agriculture Hons. program. Here I got an excellent ambience to study under the guidance of highly qualified teachers who are our mentors and motivators.

- Saikat Mishra, student, School of Agricultural Sciences
