Department of
PERFORMING ARTS

ABOUT THE DEPARTMENT

The three areas of performing arts - music, dance, and drama, bud from a common conception of the human desire to express itself. They are not mutually exclusive but work together to express the human condition through song and story.

The Sister Nivedita University Department of Performing Arts provides a holistic approach to the field where learning and creativity are nurtured through instruction, research, and practice. We target students in their formative years with the objective of fostering their intellectual development and artistic maturity.

We are committed to prepare students to overcome challenges and work with peers in real-life situations in flexible and practical teaching method. Our goal is to enhance creativity and free thinking that complements a student's scholasticism. The benefits of studying at Sister Nivedita University Department of Performing Arts are evident from our community.

In general, performing arts degrees either take a practical approach, which involves a substantial amount of on-stage performance from the inception of the courses, or an academic approach, which combines the practical work with an analysis of the background on the subject.

Our university also offers the option to undertake work experience during coursework. This is a great opportunity to develop skills obtained within a professional environment. It is also a way to boost the student's journey towards graduation. The university gives them the chance to expand their professional network, thereby opening avenues for employment. Students are encouraged to perform in media, which allows for a showcase of their creative talent. This promotes them to gain an exclusive lead to their career.
